

Yana Diachok

Front-end React Developer

 Vinnytsia, Ukraine (Remote)  +380986629945  cerahuk2023@gmail.com  [Yana-Diachok](#)  [Yana-Dyachok](#)  [@yana_ins](#)

Professional Profile

- Highly motivated Front-end React Developer with experience in developing Single Page Applications (SPAs) and web applications.
- Eager to leverage skills in React, TypeScript, and Next.js to create innovative web solutions.
- A quick learner, team player, and adept at problem-solving and adapting to new technologies

Experience

Freelance Experience (2024 - Present)

- Proficient in developing responsive designs and implementing user-friendly interfaces, ensuring optimal performance and user experience.
- Successfully completed various freelance projects, including the development of online stores with integrated shopping cart functionality. Created customized websites for diverse clients, focusing on clean code, SEO optimization, and seamless navigation

Trainee React Developer (July 2024 - Sept. 2024)

(The Rolling Scope School)

- Developed a React app utilizing Redux Toolkit and RTK Query, resulting in a 20% improvement in data loading speed.
 - Collaborated within a team of three, leading key development aspects and ensuring a seamless user experience.
 - Developed complex and dynamic forms using React Hook Form and Yup for validation, integrated with Redux Toolkit for state management and React Router for navigation. This resulted in a streamlined user input process and improved data integrity.
- **Trainee Front-end Developer (March 2024 - June 2024)**
(The Rolling Scope School)
 - Created "RSS Puzzle", an interactive language-learning mini-game. Designed a gameplay experience that allows users to assemble sentences from jumbled words.
 - Developed "Fun Chat", a real-time chat application leveraging WebSocket protocol for bidirectional communication between client and server.
 - Was part of the development team that created a responsive eCommerce SPA with user authentication, product cataloging, dynamic product pages, and a shopping cart with CommerceTools API integration.

Projects

Async Race:

Description: an interesting single page application (SPA) for a drag racing control system that allows users to control car engines and analyze race statistics. CRUD operations used.

Tech: React, TypeScript, Vite, Material UI, Redux, SCSS, Styled Components, ESLint, Prettier, Husky [Demo \(need server\)](#) | [GitHub Code](#)

REST/GraphQL Client:

Description: a lightweight hybrid of Postman and GraphQL, supporting REST methods, GraphQL requests, authentication, and request history.

Tech: React, TypeScript, Vite, Remix, Firebase, Material UI, Styled Components, ESLint, Prettier, Husky, Vitest, Team work

[Demo](#) | [GitHub Code](#)

React app:

Description: migrated an application from Vite to Next.js for server-side rendering and adapted it for Remix integration.

Tech: React, TypeScript, Context API, RTK Query, Redux Toolkit, Next.js, Remix, Styled Components, Jest, Vite, ESLint, Prettier, Husky

[Demo](#) | [GitHub Code](#)

Education

- The Rolling Scope School
 - Node.js Developer (Sept. 2024 – Dec. 2024) [certificate](#)
 - React Developer (July 2024 – Sept. 2024) [certificate](#)
 - JavaScript/Front-End Developer (Nov. 2023 – June 2024) [certificate](#)
- IT-Step Academy (2021 – 2022)
- National Pirogov Memorial Medical University (2011 – 2019)

Skills

• **Markup & Styling:** HTML5, CSS3, SASS/SCSS, BEM

• **Languages:** JavaScript (ES6+), TypeScript, C++ (Basic, OOP)

• **Frameworks & Libraries:** React, Next.js, NestJS, Redux Toolkit, React Hook Form, Material UI, Styled Components, Tailwind CSS

• **State Management:** Redux Toolkit, Context API

• **APIs & Backend:** REST API, GraphQL, Axios, Firebase, WebSocket

• **Tools & Platforms:** : Git, GitHub, Node.js, Docker, Webpack, Vite, ESLint, Prettier, Husky

• **Software Architecture:** SOLID principles, Data Load Balancing, Sorting Algorithms

• **Design and Prototyping:** Figma(for web development), Trello

• **Testing:** Jest, Vitest

Languages

• Ukrainian (native) • English B2 (in progress) [certificate](#) • German A1 (in progress) [certificate](#)
