

Yana Diachok

Front-end React Developer

 Vinnytsia, Ukraine (Remote)  +380986629945  cerahuk2023@gmail.com  [Yana-Diachok](#)  [Yana-Dyachok](#)  [@yana_ins](#)

Professional Profile

- Motivated Front-end React Developer with experience in building responsive Single Page Applications using React, TypeScript, and Next.js.
- Proficient in state management, API integration, and modern front-end development tools.
- Strong communication skills, a fast learner, and a proactive team player eager to contribute to high-quality, scalable solutions.

Experience

- **Trainee Full-Stack Developer (ReactJS + NodeJS) (March 2025 - May 2025)**
(CGS-team)
 - Built web & mobile apps with React, React Native, NestJS, and Prisma.
 - Worked with PostgreSQL and Expo. Collaborated with mentors to follow best practices.
- **Freelance Experience (2024 - Present)**
 - Delivered 5+ responsive client websites and e-commerce platforms with shopping cart and SEO features.
 - Focused on mobile-first design, Core Web Vitals, and accessibility (WCAG 2.1).
 - Increased client satisfaction rate by 90% due to clear UI/UX, optimized loading, and error handling.
- **Trainee React Developer (July 2024 - Sept. 2024)**
(The Rolling Scope School)
 - Implemented complex forms using React Hook Form and Yup; reduced form error rate by 50%.
 - Integrated Redux Toolkit and RTK Query for efficient state and API management.
 - Enhanced team productivity by 30% through task delegation and Git collaboration.
- **Trainee Front-end Developer (March 2024 - June 2024)**
(The Rolling Scope School)
 - Created language-learning game and real-time chat app using WebSocket.
 - Contributed to a responsive eCommerce SPA with CommerceTools API integration.

Projects

- **Booking System:**
Description: client-business full-stack app for browsing and managing scheduled appointments.
Stack: Nest.js, Node.js, React, TypeScript, Next.js, Prisma, PostgreSQL, [Demo](#) | [GitHub Code](#)
- **Async Race:**
SPA for car race control and stats with CRUD and engine simulation.
Stack: React, TypeScript, Vite, Redux, MUI, [Demo \(need server\)](#) | [GitHub Code](#)
- **React app:**
Refactored project from Vite to Next.js with SSR support and Remix integration.
Stack: React, Redux Toolkit, RTK Query, Remix, [Demo](#) | [GitHub Code](#)

Achievements

- Top-30 finalist in RSSchool React Course (2024Q3) among 400+ students.
- Boosted data-fetching efficiency by 20% in a React app by implementing RTK Query and memoization.
- Migrated a Vite-based SPA to Next.js with server-side rendering, improving SEO and initial load speed by 35%.
- Developed and deployed a full-stack Booking System used by real clients with 99% uptime.
- Delivered 3+ production-level apps, maintaining 90+ Lighthouse performance and accessibility scores.
- Achieved 80%+ unit test coverage across major project components using Jest and React Testing Library.

Education

- The Rolling Scope School
 - Node.js Developer (Sept. 2024 – Dec. 2024) [certificate](#)
 - React Developer (July 2024 – Sept. 2024) [certificate](#)
 - JavaScript/Front-End Developer (Nov. 2023 – June 2024) [certificate](#)
- IT-Step Academy (2021 – 2022)
- National Pirogov Memorial Medical University (2011 – 2019)

Skills

- **Markup & Styling:** HTML5, CSS3, SASS/SCSS, BEM
- **Languages:** JavaScript (ES6+), TypeScript, C++ (Basic, OOP)
- **Frameworks & Libraries:** React, Next.js, React Native, Material UI, Styled Components, Tailwind CSS, React Hook Form, NestJS
- **State Management:** Zustand, Redux Toolkit, Context API
- **APIs & Databases:** REST API, GraphQL, Axios, PostgreSQL, Firebase, WebSocket
- **Tools & Platforms:** : Git, GitHub, Node.js, Docker, Webpack, Vite, ESLint, Prettier, Husky
- **Software Architecture:** SOLID principles, Data Load Balancing, Sorting Algorithms
- **Design and Prototyping:** Figma(for web development), Trello
- **Testing:** Jest, Vitest

Languages

- Ukrainian (native) • English B2 (in progress) [certificate](#) • German A1 (in progress) [certificate](#)
